Minor Illnesses and Injuries

Where to go for care.

Primary Care

Includes prevention and checkups, disease prevention, health maintenance, counseling, patient education, diagnosis, management and treatment of acute and chronic illnesses.

- Wellness exams
- Disease prevention
- Health maintenance

Walk-In Care

Urgent medical conditions are ones that are not considered emergencies, require care within 24 hours and when you aren't able to see your Primary Care Provider.

- Accidents and falls
- Cuts that don't involve much blood but might need stitches
- Breathing difficulties, such as mild to moderate asthma
- Eye irritation and redness
- Diagnostic services, including X-rays and laboratory tests
- Fever or flu

Emergency Department

In general, an emergency condition is one that can permanently impair or endanger your life. Some examples of conditions that need emergency medical care include:

- Compound fracture, which involves a bone protruding through the skin
- Convulsions, seizures, or loss of consciousness
- Deep knife wounds or gunshot wounds
- Heart attack symptoms, such as chest pain that lasts longer than two minutes
- Moderate to severe burns
- Poisoning
